1. Basis of Presentation

The accompanying unaudited financial statements of Maverick Energy Group, Ltd. (“the company”) do not include all information and footnotes necessary for a fair presentation of financial position, results of operations and cash flows in conformity with accounting principles generally accepted in the United States of America for complete financial statements. In the opinion of management, all adjustments (consisting of normal recurring adjustments and accruals) considered necessary for a fair presentation of the results of operations for the period presented have been included.

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from these estimates.

On March 30, 2006, the Pinnacle Group Unlimited, Inc. (“PGPU”) purchased certain assets and assumed certain liabilities of Maverick Energy Group, Inc. (“Maverick”) in exchange for 95,000,000 shares of its treasury stock. Maverick’s management team assumed management of PGPU as part of the transaction. Effective October 3, 2006, PGPU changed its name to Maverick Energy Group, Ltd.

The line of credit is with a national bank at an interest related to the bank prime rate, which was 5.28% and 8.5% at September 30, 2008 and December 31, 2007, respectively.

7. Contingencies

The Company provides for costs related to contingencies when a loss is probable and the amount is reasonably estimable.

The Company, as an operator of oil and gas properties, is subject to various federal, state, and local laws and regulations relating to discharge of materials into, and protection of, the environment. These laws and regulations may impose liability on the operator of oil and gas lease or concession for the cost of pollution clean-up resulting from operations and also may subject the lessee to liability for pollution damages.

It is not possible for the Company to reliably estimate the amount and timing, if any, related to environmental matters because of the difficulty of predicting cleanup requirements and estimating cleanup costs, the uncertainty in quantifying liability under environmental laws that impose joint and several liability on all potentially responsible parties and the continually changing nature of environmental laws and regulations and the uncertainty inherent in legal matters.

Any stock issued under this plan in the future will be restricted as to sale for one year.
